

IH9090 - POWERMID XTRA

Qualities

IH9090

KEY Features:

- * Controlling your audio/video equipment from any other location in your house, e.g. bedroom, studyroom, etc.
- * The included Remote control sends IR and HF commands.
- * Comprehensive library includes codes for most TV's, VCR's , SAT's.
- * The remote control can be used to control TV's, VCR's, Satellites, and to control X-10 systems.
- * Controlling X-10 systems (e.g. Lampmodule) in combination with Transceiver module (IH2060 or IH2061).

Applications

The Powermid Plus sends, by means of a built-in wireless transmitter, not only Infrared signals, but also High Frequency signals that go through walls and ceilings.

You don't need to point your remote control towards your equipment to switch channels; you can even control your equipment throughout another room.

The Powermid Receiver has to be placed in the direct neighborhood of the equipment that needs to be controlled. Whenever a command is send from the 4 in 1 remote control, the Powermid Receiver will pick up the HF signal and converts it back into an infrared signal to control your audio/video devices.

For more details on the Powermids, see IH9060 Powermid XL.

Technical information

4 in 1 Remote

Operating Voltage:	3V, 2 x 1,5 V AAA ("micro") batteries
RF Frequency:	433.92 MHz
Ambient temperature:	0°C - 30°C
RF operating range:	25 m (open field)
Dimensions:	170 x 50 x 30 mm

Powermid Receiver (IH9080)

AC supply:	220 VAC/ 50Hz
RF input:	433,92 MHz
Operating Range:	10 - 20 m
Dimensions:	75 x 75 x 110 mm
